LUMINA
glass collection

Luce e minimalismo. Come fossero quinte di un teatro, le porte della collezione LUMINA, si inseriscono armoniosamente nello spazio aprendo e chiudendo scenari domestici, professionali e retail. Un segno essenziale che divide ma che allo stesso tempo connette tra loro gli spazi, tramite le trasparenze del vetro, attraverso cui la luce e la visibilità non sono mai limitati.

Light and minimalism. As if the drapes in the theater, the doors of Lumina collection, fit harmoniously in the spaces, opening or transforming domestic and working landscapes. A remarkable part that divides and connects spaces at the same time, thanks to the transparency of the glass, thus the light and the visibility are never limited.
