SISTEMI **APERTURA**

I sistemi di apertura delle porte sono essenziali per adattarsi ad ogni gusto ed esigenza. Dai più funzionali ai più ricercati sistemi, AGOPROFIL® è in continua ricerca delle soluzioni migliori. Le nostre porte sono composte principalmente da un cardinamento anta-telaio, battuta, cerniere a scomparsa ed una serratura magnetica.

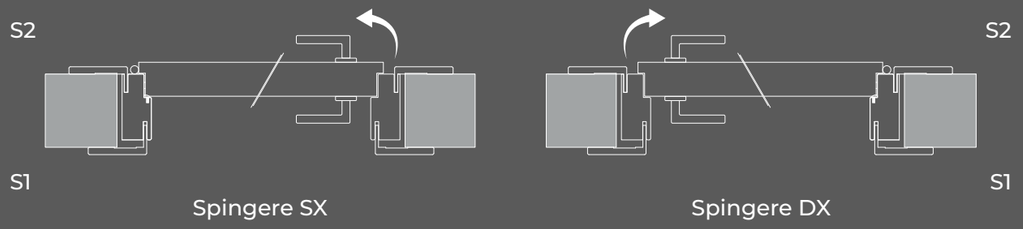

OPENING **SYSTEMS**

Door opening systems are essential to adapt to every taste and need. AGOPROFIL® continuously researches the best functional and refined solutions for its systems. In most cases our doors are composed of hinged panel and frames, door edge rebates, invisible hinges and magnetic locks

Le porte con sistemi d'apertura salvaspazio sono una soluzione pensata per ridurre al minimo gli ingombri d'apertura al fine di ottimizzare gli spazi e migliorare la funzionalità degli ambienti domestici e professionali.

Ideali per case contemporanee, uffici e piccoli spazi, questi meccanismi uniscono design e comfort grazie a tecnologie silenziose e movimenti fluidi. Oltre a recuperare spazio utile, contribuiscono a creare ambienti versatili e ben organizzati, rispondendo alle esigenze dell'abitare moderno.

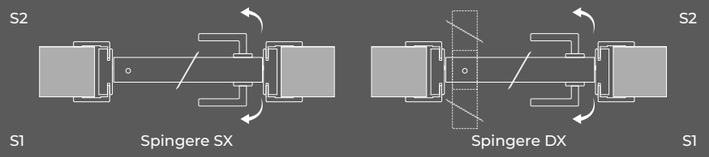

Doors with space-saving opening systems are designed to minimize opening clearance, optimizing space and improving the functionality of both residential and professional environments.

Ideal for contemporary homes, offices, and compact spaces, these systems combine design and comfort through silent technologies and smooth movements. In addition to maximizing usable space, they help to create versatile and well-organized interiors, meeting the needs of modern living.

LACCATE
SCULTURE

„Un gesto scultoreo che rompe la continuità della bianca superficie laccata“.
In riferimento a gestualità artistiche, gli iconici modelli SCULTURE vogliono rendere le superfici verticali protagoniste.

ENELAI in Minorca

GARYB in Minorca

SCULTURE

„A gesture that breaks the continuity of the whitelacquered surface.“
Inspired by artistic gestures, the iconic SCULTURE models are designed to make vertical surfaces the true protagonists.

LYSANDRA

ENGRAVED LACQUERED

È con le nostre Incise che sperimentiamo il potere creativo della linea. Una figura avente una sola dimensione, la lunghezza, eppure così poliedrica nel suo essere. XENA e LYSANDRA: due modelli dal design cauto e minimale dove verticalità ed orizzontalità dominano.

The creative power of the line is experienced through our engraved doors. A figure that only has one dimension, the length, yet is so versatile in its being XENA and LYSANDRA, two models with a restrained and minimalist design where vertical and horizontal lines prevail.

MATERIKA MTK

Quando il mondo PRESTIGE incontra la texture del Rovere Verticale Laccato, nasce MATERIKA MTK. La pantografatura prende vita e, percorsa dalle venature del legno, genera modelli inediti.

A new line of pantographing models came to life when PRESTIGE world has met with texture of Lacquered Vertical Oak. Pantographing, accompanied by oak grains design, generates new exclusive models.
